**Part 5: Questions 31-35 (1,25 points, CĐR 3.3)**

*Read the text and choose the correct answer A, B, C, or D*

I've practised skateboarding for 18 months now, and I was the youngest person in a street skateboarding competition last year. I spend my free time at my town's new skatepark- I rarely stay at home and watch TV.

Before the new skatepark was built this year, the nearest skatepark was in a town 10 km away. Some of my older friends went there, but my mum wouldn't let me go because I wasn't old enough. The only place to skate was on the pavements, but then I fell and injured my arm. I wasn't popular with pedestrians either, so I stopped! Nowadays, though, I can use the new skatepark in the evenings - it's got huge lights, so you can use it even at night.

We've got a skatepark at our school now, too. It keeps us fit! The school skatepark is dangerous for smaller children like my little brother, though, as the teenage students also use their roller skates or ride their BMX bikes there. I guess they prefer it because the skatepark in town is pretty busy.

I've always found schoolwork easy, but skateboarding is hard! My favourite trick is jumping over boxes. Doing things like that really makes you concentrate, which is a challenge, but it's something I really enjoy. My older sister works as a skateboard instructor, so one day I'd like to be like her. It's unusual for girls to skate around here, so although I love it, it's a bit lonely. I'd like more girls to join in!

**Question 31****0.25 / 0.25 pts**

In this text Rachel Martin

- ☒ describes the places for skateboarding in her area.

Why was it hard for Rachel to go skateboarding last year?

- ☐ None of her friends were able to go with her.

**Question 33****0.25 / 0.25 pts**

What does Rachel say about the skatepark at her school?

- ☐ It is more crowded than the skatepark in town.
- ☐ It allows younger children to practise their skating.
- ☒ It is used for several different activities.
- ☐ It takes too many people away from other sports.

### Question 34

Didn't feel like practising tonight, so stayed in and watched TV instead.  
That's the fourth time this week!

Did another competition today -I won, although I was the youngest. But  
then I have got two years' experience.

Was skating on the pavement today when I fell and hurt my ankle. I've  
done that three times now.

Couldn't use school skatepark today - there were too many bikers. My little  
brother wanted to play there but it wasn't safe for him.

**Orbis**

*An organisation which helps blind people*

Orbis is an organisation which helps blind people everywhere. It has built an eye hospital inside an aeroplane and flown it all over the world with an international medical team. Samantha Graham, a fourteen-year-old schoolgirl from England, went with the plane to Mongolia. Samantha tells the story of Eukhtuul, a young Mongolian girl.

'Last year, when Eukhtuul was walking home from school, she was attacked by boys with sticks and her eyes were badly damaged. Dr Duffey, an Orbis doctor, said that without an operation she would never see again. I thought about all the everyday things I do that she couldn't, things like reading schoolbooks, watching television, seeing friends, and I realised how lucky I am.'

'The Orbis team agreed to operate on Eukhtuul and I was allowed to watch, together with some Mongolian medical students. I prayed the operation would be successful. The next day I waited nervously with Eukhtuul while Dr Duffey removed her bandages. "In six months your sight will be back to normal," he said. Eukhtuul smiled, her mother cried, and I had to wipe away some tears, too!'

'Now Eukhtuul wants to study hard to become a doctor. Her whole future has changed, thanks to a simple operation. We should all think more about how much our sight means to us.'
